

UPDATING STUDENT INFORMATION & NEW ONLINE REGISTRATION

POWERSCHOOL PARENT PORTAL

Please take a moment to update your child's demographic and contact information online via the PowerSchool Parent Portal. All of our communication systems and upcoming online pre-registration system rely on the information you provide in our PowerSchool system. If you do not have access to the online parent portal, please visit your child's school or our District Enrollment Center with a valid photo ID to obtain the necessary access accounts. **More information can be found on our website at www.yukonps.com and search with keyword PowerSchool.**

DID YOU KNOW

If you have any changes to your address, contact information, or custodial, guardianship status with your children, you must notify your child's school or the District Enrollment Center and provide the proper legal documentation to have on file with the school. The information we have on file in our system is the information we have to legally go off of in contacting, picking up, or allowing others to contact your child that are not official school personnel.
